PORTABLE GAS DETECTORS

PERSONAL SAFETY EQUIPMENT

SECTION 1

PORTABLE PRODUCT OVERVIEW

MULTI-GAS DETECTORS

GasAlertMax Four Gas Detector - Features
Specifications

GasAlertMax w/ Datalogger
Black Box or User Downloadable
Specifications

BW Defender Detector - Features
Specifications

Dual Gas Detector (LEL/H₂S) - Features
Specifications

Confined Space Kits

SINGLE GAS DETECTORS

Disposable "Maintenance Free" Detectors

GasAlertClip
Specifications

ToxyClip2 (Two year version for toxics)
Specifications

ToxyClip (1 year Oxygen)
Specifications

GasAlert90
Specifications

Real Time Display/ Calibratable Detectors

GasAlert for Toxics and Oxygen
Specifications

GasAlert LEL (Combustible Gases)
Specifications

GasProbe CO (Carbon Monoxide Meter)
Specifications

GasAlert CO Response Kit
Specifications

ACCESSORIES AND OPTIONS

Carrying Cases, Boots, Remote Alarms, Calibration Kits, etc.

Automatic Test Stations (GasAlertClip, Toxyclip Detectors)

Personal Gas Detectors

BW Technologies designs and manufactures portable gas detectors to protect personnel in the workplace. Just as computers and cell phones etc. have become smaller, smarter and more affordable - BW Technologies has brought the same advantages to gas detection. BW's feature rich, sophisticated, rugged safety instruments typically cost 50% less than conventional portable instruments and are more user friendly.
